Re: Letter of Transmittal

Dear Mr. Speaker:

The U.S. Commission on Civil Rights is required by statute to establish at least one advisory committee in each state and the District of Columbia. The advisory committee members are citizens of the state and serve as part-time, unpaid special government employees. They inform the Commission about civil rights matters in the states. I am pleased to advise you that the Commission recently renewed the charter of its federal advisory committees.

The state advisory committees operate in compliance with the Federal Advisory Committee Act (FACA), which requires that federal advisory committee charters be filed every two years. Pursuant to the regulations promulgated under FACA (41 C.F.R. § 102-3.70), the charter is filed with the Commission's authorizing committees (i.e., the Senate and House Committees on the Judiciary). These filings are made by presenting documents to the Office of the President of the Senate and the Office of the House Parliamentarian, since those offices receive all Executive Branch communications. The charter is also filed with the Commission; the Library of Congress, Federal Advisory Committee Desk, Government Documents Section; and the General Services Administration's Committee Management Secretariat. On this date, the enclosed charter has been filed with all required offices.

Very truly yours,

MAURO MORALES
Staff Director
